

Sunday, October 1st

4:45-6 p.m. PT, Daniel Herr, M.D., Ph.D., Hall B2

2051 - Dosimetric Predictors for Acute Esophagitis during Radiation Therapy for Lung Cancer: An Update of a Large Statewide Observational Study (*Poster*)

4:45-6 p.m. PT, Sean Miller, M.D., Hall B2

2092 - Assessing Patterns of Practice in Early-Stage Lung Cancer Radiation Therapy: Findings from a Large Statewide Consortium Study on Hypofractionation (*Poster*)

Monday, October 2nd

10:45 a.m.-12 p.m. PT, Matt Cousins, M.D., Ph.D., Hall B2

2210-Cannabis Use Patterns Among Patients with Early-stage Breast Cancer in a Large Multicenter Cohort from a State with Legalized Adult Non-medical Cannabis (*Poster*)

3-4:00 p.m. PT, Alex Moncion, Ph.D., Hall B2

2413-Impact of breast volume on achieving a conservative heart and target coverage metric for patients receiving whole breast radiotherapy in a statewide consortium (*Poster*)

Tuesday, October 3rd

3-3:05 p.m. PT, Daniel Herr, M.D., Ph.D., Room 7

1118 - Factors Associated with Cardiac Radiation Dose Reduction Following Hypofractionated Radiation Therapy for Localized, Left-Sided Breast Cancer in a Large Statewide Quality Consortium (*Quick Pitch*)

2:30-3:45 p.m. PT, Michael Dykstra, M.D., Hall B2

2832 - Androgen Deprivation Therapy Use among Intermediate Risk Prostate Cancer Patients Undergoing Radiation Therapy across a Statewide Radiation Oncology Quality Consortium (*Poster*)

2:30-3:45 p.m. PT, Samuel Regan, M.D., Hall B2

2941 - ADT Use and Nodal Irradiation in Men Receiving Post-Prostatectomy Salvage Radiotherapy within a Statewide Radiation Oncology Quality Consortium (*Poster*)
